## JUDGE LYNCH.

Samuel Purple, the Murderer, Pays the Penalty of His Crime.

At the Hands of the Outraged Community in Which He Lived.

He Tries the Insanity Dodge, and Does it in Such a Manner as Not to Deceive.

The Doomed Man is Taken to the Scene of His Crime and is Hanged in

His Own Backyard—The Mob Quiet and Orderly and Act With Military Precision.

## JUDGE LYNCH—HIS WORK.

Samuel Purple, the Murderer, is Hung by an Outraged Community.

Special Dispatch to the Daily Eagle.

JEROME, Kan., Nov. 9.—Sam Purple, who murdered his wife and two children at his home nine miles east of this place last Friday morning, and whom it would be gross flattery to call a brute, suffered the penalty of his crime this morning at the hands of an outraged community.

After committing the deed he came to town and gave himself up to the sheriff. On being asked the cause of the crime he assumed the insanity dodge, but did it in so bungling manner as to deceive no one. His act is attributed to his natural depravity, carefully cultivated by a series of drunken debauches and the habitual use of rum. He was not drunk, however, at the time he committed the deed. His crying plea for protection before any threats were made against him showed that he understood the nature of his offense and realized the probable consequence. It is said that a party was organized to lynch him Friday night, but delayed until after the funeral of his victims, which took place on Sunday. Saturday night with a view of securing his prisoner, Mr. Gillmer, the sheriff, sent him some miles west on Buckner creek, under a strong guard, but it was found they were being tracked so they returned and lodged their prisoner in jail, arriving here at about 8 o'clock last night. During all the early part of the night everything was quiet as usual.

At midnight a company of horsemen dashed into the jail yard square from the south. The sheriff stepped into the front room of the jail, which is used as guard quarters, and with revolvers drawn ordered the men to disperse, instantly parties from the north, east and west closed in on him and crowded after him into the guard room. All the movements of the assailants were made in regular military style, some of them held the horses, others formed a guard around the jail, others took possession of the jail, and the whole town was guarded with squads of armed men, part of them masked. The guards were overpowered and the keys forcibly taken from the sheriff, and the prisoner was taken from the jail with a rope around his neck, and the hand moved off in an exceedingly short time and the town was quiet again. Purple was taken to the home he had desecrated and was hanged in front of his own house. The inquest on his remains will be held today.

## The Anarchists.

CHICAGO, Nov. 9.—Upon being shown the New York dispatch relative to the case of the Chicago anarchists being taken up to the supreme court of the United States, their counsel, Captain Black, laughed and said: "I am getting all my information about the anarchists from the newspapers. This is the first I have heard of the case of the anarchists and I don't know if Mr. Bryman or Mr. Whitney. If the case is taken to the United States supreme court, it will be on the ground that the right of free speech has been assaulted. The bill of exceptions and the record of the court in the anarchist case having been compared and noted, and the cases before the cases to go to the supreme court, but the signature of Judge Gary, States Attorney General, says he believes the anarchists' lawyers to be delaying the matter for purposes known to themselves.

## The Indiana Squabble.

INDIANAPOLIS, Ind., Nov. 9.—The Democratic committee of safety held a meeting tonight and passed resolutions declaring that the Republicans contemplated stealing the legislature by counting out legally elected members, and calling on the Democrats throughout the state to organize clubs for the purpose of seeing that the members of their party are not defrauded of their rights. The committee also passed resolutions denouncing the transfer of the Marion county ballot and election papers to the custody of the United States court. The Citizens' committee of one hundred also held a meeting tonight. S. H. Q. Bowen, dem., was chosen chairman and an executive committee of nine selected, with E. B. Martindale as chairman. Several hundred dollars were paid in and subscribed to assist in the discovery of frauds upon the ballot and particularly the alleged forgeries committed upon the returns of Marion county in the recent election.

## Failure.

NEW YORK, Nov. 9.—The schedules in the assignment of Barrenmore & Co., dealers in hops, were filed today. The liabilities are \$235,400, nominal assets \$118,670, actual assets \$14,000. The cause of the difference in assets is that a large quantity of hops have been attached by creditors and are to be sold at sheriff's sale.

## \$20,000 Blaze.

SPRINGFIELD, Mo., Nov. 9.—An entire block on Main street was consumed by fire this morning. The cause of the fire is unknown. Loss nearly \$20,000, light insurance.

## The Contract Let.

MINNEAPOLIS, Minn., Nov. 9.—The contract has been let to put in water works at this place.

## THE PRESIDENT'S RETURN.

WASHINGTON, D. C., Nov. 9.—President and Mrs. Cleveland and the cabinet officers who accompanied him to Boston, returned to Washington at 4 o'clock this afternoon.

## DESTITUTE INDIANS.

The secretary of the interior, having received a telegram from Gen. Howard saying that two hundred Paulini Indians, located on the reservation in Northwestern Arizona, are in a destitute condition in a barren country and must be fed or starve, has requested that the military authorities issue a two-third ration per day to those Indians to the extent of \$5,000, the whole of the appropriation made by congress for their support, and in any event that sum proves insufficient to sustain them through winter months, or until they are able to provide for themselves, the interior department is advised of the fact before the \$5,000 is exhausted, when further provisions will, if necessary, be made for their subsistence. The government ration for an Indian is three pounds of beef gross and half a pound of flour.

## MAY BE MADE SO.

Dr. Geo. Neasey, the botanist of the agricultural department, who has recently spent several weeks in the "arid region," in his report to the commissioner of agriculture, expresses the belief that a large portion of the area so designated may be made vastly more productive by the cultivation of a prolific species of grass and forage plants than the prairie and hillside grasses, upon which cattle now subsist. It is, however, he says, a matter to be determined by experiment and to this end he recommends the utilization of the Ft. Wallace, New Mexico, reservation as an experiment.

## Watterson on Morrison.

NEW YORK, Nov. 9.—Henry Watterson arrived in New York from Havre on the French steamer La Bourgogne, last Sunday night. Yesterday he went to the hotel Bartholdi. Regarding the defeat of Morrison he did not consider that it was to be laid to the tariff question, and he believed there had been disaffection among the Democrats in Morrison's district, due solely to disappointment with the results of the Democratic administration, and that the disaffection, he admitted, was not by any means confined to Morrison's district. The Democrats generally, he thought, felt that they had lost their baggage on the field. The narrow escape of Carlisle from defeat, Watterson said, was merely an accident. This experience would teach the necessity of a careful and systematic canvass even in the districts deemed safe. The defeat of Hurd in the Toledo district, Watterson attributed solely to the personal opposition to Hurd, because of his practical non-residence in the district which he sought to represent. Cleveland's nomination, Watterson said, looks now as altogether probable. The Democrats, he is inclined to think, will rise above the spoils field, demand a fair revision, reject Cleveland, do away with the nonsense of the civil service reform and accomplish their main aim, tariff revision.

## Of Great Significance.

NEW YORK, Nov. 9.—The Mail and Express says: The recent transfer of a valuable water front on Staten Island to a western railroad as a point for transfer, is discussed by commercial men as a move of great significance. The property acquired is the Roe plots, covering a quarter of a mile of water front just below Van Bilit handling, and also thirty acres of land in the interior. The purchases were made by E. D. Connell, a prominent real estate agent of this city, from various local parties, in the interest it is said, of the duties of Devonshire and Bue-selence. These gentlemen own large corners of the Hudson river line of steamers, and own nearly all of the barrow in Furness the point in Scotland to which shipments are to be made. The newly acquired water front is large enough to admit of extra docks and piers that will accommodate the largest ocean steamers, and also thirty acres of land in the interior.
